

Rose List 2024

CASTLE HOWARD

Welcome to the Castle Howard Rose List for 2024

Here you can find a list of all the roses we have in stock this season. If you cannot find what you are looking for, please speak to one of our Garden Centre staff who will be happy to help you.

PLANTING INSTRUCTIONS

The roses you are going to plant will be permanent features in your garden for many years so don't skimp on them. Use well prepared soil, deeply dug and manured with bone meal or similar and plant firmly. Prune back if required and mulch on top with manure.

ROOTGROW is highly beneficial when planting roses where roses have already been. Replace as much soil as possible with fresh soil from the vegetable garden or plenty of blended farmyard manure and mix in well. Place a small handful of ROOTGROW in each planting hole where it will be in immediate contact with the roots of the new plant. Backfill with the new soil, manure and bone meal and firm in well.

While you're here why not pop into the Farm Shop Butchery

As a Country Estate, we pride ourselves in sourcing as much produce as we can from within the Estate. We form strong and lasting relationships with our tenant farmers so we can work together to supply our customers with fresh, local produce. Grass-fed Aberdeen Angus cattle graze amongst monuments like the grand Mausoleum and provide a traditional farming backdrop to the stately home, and our Ray Wood pigs can be found foraging in our woods. This journey from field to fork, keeping our food miles down to an absolute minimum and providing high quality produce whilst backing the local economy and community, is an important part of our customers' experience. We also partner with local, sustainable companies such as Trotters, our long-term partners who lovingly rear free-range pork, and the Clifford family who produce fantastic quality Estate-reared lamb from Slingsby.

Open from 10am daily
